In **2007**, I bought a retail boxed version of this game. I played the Unreal Tournament a lot back then. But since, it's been dusting on my shelf for years.

Today, I saw that UT3 Black was re-released on Steam. Now, it has achievements and a great steam community. I was going to buy it for 19.99\$ USD.

First, I decided to try to activate my old retail box on Steam, for fun.

Even though the CD-KEY format was not officially supported.

*Game activated.*

Today was a good day.
